Batman: Arkham Asylum.

"Blackest Night" was a major threat in Gotham. The Bat-family had an obligation to help the people of Gotham, as the people of the world were fighting back against the Black Lantern. The Joker kidnapped Catwoman and killed Commissioner Gordon. The player can choose to play as Batman in Story Mode or take control of any other of the three

playable characters. Instead of trying to stop the Joker, Batman uses his detective abilities to find out . Digital hotfix for Batman: Arkham Knight that addresses a number of issues. A redeemable code is included as well as game features that have been restored.

Batman Arkham Origins.

Detective mode sets you to investigate the crimes and solve the puzzles of a new Gotham and the Batman's allies and enemies.

Arkham Origins implements a mini-game called the "Joker's

Cards", which is an "addiction" to gambling. It allows the player to unlock bonus content in the game, and it also provides hints towards the game's mysteries. The mini-game is optional, and can be accessed or ignored at the player's convenience. Batman: Arkham Knight. During the "Blackest Night" storyline, Gotham's citizens were united in their struggle against the Black Lanterns. The Joker had kidnapped commissioner Gordon and Catwoman in order to use them as

bait to lure the player into his trap. Enables Batman to go into stealth mode, and allows the player to use a grappling hook to swing from high up on Batman and batarang to the ground. "Batman: Arkham Origins" features a new story with new characters, enemies and Batman's allies. On August 4, 2016, Rocksteady Studios announced that they were exploring the possibility of bringing back the character of the Joker for an upcoming game. It was also stated that the

announcement would be made "later this year". Concept and development A Batman videogame, developed by Warner Bros. Interactive Entertainment, was produced by Rocksteady Studios and published by Warner Bros. Interactive Entertainment. It was released for Microsoft Windows, PlayStation 3, Xbox 360, and Wii U in April, May and June 2013, respectively. Another Batman game titled Batman: Arkham Knight was released by Warner Bros. Interactive on May,

23, 2014, for Microsoft Windows, PlayStation 3, Xbox 360, and Wii U. Arkham Knight receives exclusive DLC content available on the Xbox 360 and PlayStation 3 versions. Reception Critical reaction to the original Batman: Arkham 3da54e8ca3
