See supra, p. 613. Conclusion 18 We find no reversible error in the district court's finding that Virginia law governs plaintiff's tort claim; we therefore affirm the judgment in this respect. We further find no error in the district court's exercise of its discretion with respect to the exclusion of evidence of plaintiff's prior career and "dishonesty" allegations; and we affirm the court's denial of defendants' motion for a directed verdict on this issue. Accordingly, for the reasons stated above, the judgment of the district court is 19 AFFIRMED. 1 The district court ordered that defendants' directed verdict motion be deferred and the verdict was given during the pendency of defendants' Fed.R.Civ.P. 50(b) motion. Our review is therefore of the sufficiency of the evidence in light of the jury's verdict. See Sears Roebuck & Co. v. Under the law as it existed in 1967, an employee who worked for a day a week was entitled to overtime pay at one and one-half times the hourly wage. For an employee who worked seven days a week, overtime pay was computed as one and one-half times the employee's weekly wage. Under current law, the guidelines are different. If an employee works for a given week he is entitled to one and one-half times his regular hourly wage. If he works six days per week and overtime is required, the employee is entitled to one and one-half times his regular hourly wage for each of the six workdays The stipulation read: 8. Understanding brushes Brushes do a lot of things, and they have unique names for different parts of a stroke. Let's start with the basics and then explore the different types of brushes available in Photoshop. You'll notice that some brushes just have an "Eraser" or an "Eraser" [concentric] in their name. These brushes apply to the same area of pixels or strokes as the Eraser tool that appears under the Brush submenu. These brushes make it easy to erase areas of an image, and the Eraser tool is quite a bit faster and more precise than using the Brush tool. The most common Brush tool, however, is the Brush tool.
