Hello Everyone, & Welcome To This Money Pot! With Just 1 Click You Can Contribute To An Emergency Fund For Life's Needs! .Morning gourmet: tapas and family fun in Spain Find something to appeal to any palate and taste buds in these bars, restaurants and cultural highlights in the world's most diverse country, Spain. I'm starting this week's morning gourmet with some of Spain's best known gastronomic products. In Spanish, they're called tapas, and they're a little like a single bite or short meal. Some are beautifully arranged as individual plates of food, while others, like tortilla de patata (Spanish omelet) are served as large slices or puffs. The idea of sharing with friends or a group of family and friends is at the heart of the concept. In this series, we'll explore more of Spain's wonderful food, drink and culture and our focus will be around Barcelona, its bars, restaurants and tapas. It's also worth noting that the name of this column has changed. It's now always marked with the term Morning Gourmet, as it's intended to be an after breakfast treat, and one that combines the words and suggestions of my girlfriend, the love of my life, and the brains behind this column, María Farré. Though the overall theme here is tapas, we'll also delve into the topics of bar wine, and I'll be exploring local Spanish bars and their offerings - with a focus on Barcelona. These are places where you can get a good bite to eat, drink a little wine, and maybe have a small beer to wash it all down.

Tapas and pub food - Barcelona style For me, the best way to sample an ample variety of Spanish cuisine, and tapas in particular, is to go to a bar, or taverna. Often they'll be at the front of a street and offer something to eat or drink in addition to snacks. Bars in Spain are social events. In the best ones you'll rub shoulders with fellow drinkers and you'll also be close enough to the owner to ensure you get a discount. Tapas are often offered early in the evening as a prelude to an aperitif or before going into a restaurant
