The city is separated into four zones - North, Central, East and West - for the provision of services and development. Each zone has a municipality, headed by an elected municipal committee. The city is divided into nine administrative divisions, which are grouped into three regions - East, West and Central. INFORMATION ABOUT KHARNAKHAD The city has been the nerve centre of commerce and industry in the state of Maharashtra since the first commercial establishment outside Mumbai was established in the western suburbs of the city. By 1991, the State of Maharashtra had witnessed the growth of 12,000 industrial undertakings and the city was designated as the state's industrial hub. It has a four-lane arterial road network for the movement of goods and passengers. The proposed railway line from Varanasi to Mumbai was to pass through Khandakhad, which would give the area direct access to the National Capital Region. The area consists of eight localities - Tikamgarh, Tikamgarh Bazar, Dhanki, Dhanora, Dhanora Road, Kanawali, Khandakhad and Jakhu. The surrounding area is also one of the largest retail markets for agricultural products in the state. The area has a good system of distribution with wholesale and retail outlets, with constant supply of essential commodities. The main market at Khandakhad is a part of the all-state capital of Maharashtra. The city is served by the Nashik-Pune national highway, which forms part of the Mumbai-Delhi Grand Trunk Road. The area also has a special food processing zone called the Poona Export Processing Zone, which was extended to an area of 200 hectares. It has an integrated development area called the Maharashtra Motor Tool Park (MMB), which is a state-of-the-art production and research centre. The city is connected to the national railway system through the Lokmanya Tilak Terminus railway station, which is a major railway centre. The Khandakhad railway station lies on the Konkan Railway, which carries passengers to places like Goa, Mangalore, Kochi, Ernakulam and parts of Kerala. Khandakhad is also close to the narrow gauge Konkan Railway, which is a commuter service connecting Ratnagiri, Sindh

We conducted a phase II study to determine the efficacy and safety of high-dose idarubicin (10 mg x m(-2) x d(-1)) given as an intravenous injection for seven days in patients with refractory or relapsed acute myeloid leukemia (AML). Sixteen patients were treated, with 11 patients being evaluable for the response. Among evaluable patients, one complete response (CR) and two partial responses (PR) were obtained, and the overall response rate was 13.6% (1/7). The median of total courses of idarubicin administration was 5, and the median of courses of idarubicin administration per patient was 2. Median survival of evaluable patients was 4 months and overall survival of evaluable patients was 2 months. There were no serious adverse events (grade 3/4) related to idarubicin treatment, except for a case of skin rash. Although the results of this study were not so favorable, more intensive chemotherapy will be required to enhance the efficacy in the treatment of refractory or relapsed AML.Flowerpot Theatre The Flowerpot Theatre was a London theatre company founded in 1888. History From its founding in 1888, the theatre was based in the suburb of St Leonards-on-Sea, East Sussex. It was originally named the Suffolk Highway Touring Co. However, soon after opening it changed its name to The Surrey Pathway Co., then The Surrey Actors Co., and later The Shore Actors Co. The company eventually disbanded in 1899,
