Tatsuo Kawanishi was a photographer, journalist and diplomat who was born in Nagasaki, Japan and died in Beijing, China. His style in photography is most notable for his unusual use of lighting, reflections, and angles, often deliberately capturing an uncomfortable and often dysfunctional image (see cringe-worthy pictures). He was known for his skill and eccentricities as a photographer, editor, and graphic artist. His later life was noted for his official and unofficial diplomatic career. Early life Kawanishi was born on October 2, 1887 in Nagasaki, Japan, into a family of missionaries. His father was a Japanese Anglican and his mother a Scottish Presbyterian. He worked as a journalist from 1909 to 1921 and graduated from Tokyo University. After becoming a staff photographer for the Asahi Shimbun, in 1921 he traveled to China and began to work as a freelance photographer. He was editor of the China Magazine from 1923 to 1926. Career in China Kawanishi's first published image was in 1932, a picture of a teacher he took as a schoolboy in Nagasaki. His photographs were published in a selection of images called Nagasaki no kodomo (Nagasaki Children), published by N c9d1549cdd

The Coma 2: Vicious Sisters DLC - Mina - Local Celeb Skin Update: This patch is huge! For the full list of changes, refer to this changelog. This patch is required if you've installed previous updates from the 1.8.0 Update Pack DLC. If you're just installing this update pack, you don't need to update your game. After installing, go to MyGame > Data > Version to check if you're already at the latest version! How to update to The Coma 2: Vicious Sisters DLC - Mina - Local Celeb Skin Update: 1. Open the game launcher and select My Games/The Coma 2. Select the game and press [] 2. You'll be prompted to update to the latest version. Select Install to update, or Select Download to cancel. If you were using the game's built-in English voice pack, it will be replaced with the DLC's new voice pack, though we recommend updating anyway, since it can cause some minor problems with game settings and saves. If you're using a controller, you'll have the option to transfer controllers from the main game to this DLC. If you're using a keyboard, you'll be prompted to download and install keyboard maps from the main game. We hope you enjoy the new skin and portraits, and we'll be back soon to bring you more content! General Bugs: - [PTAL!] Mina has a tendency to cheat during her Online Battles. This is known as a difficult bug, and we apologize for this inconvenience. - If you're using a controller and are experiencing hard lock-ups, please use the console commands available in game (this is especially effective for testing purposes) to fix the issue. Tips & Tricks: - When playing in online battles, you'll need a higher amount of HP/SP for success! - Mina's TP is still shared with her brothers in the Online Battle. - Mina still has her Camera 4 requirement in her movie room. - You can still collect items from props like metal waste and food containers. - Character Conversion is still not possible in The Coma 2: Vicious Sisters DLC - Mina - Local Celeb Skin. This will not be implemented until further updates to the game. - Some achievements and rewards in the main game may not transfer over to this DLC.

What's new:

Ato: Best of Finn for the Dead is a double-disc album containing the complete original score to the Finnish cult horror film of the same name, composed and conducted by Tuomas Holopainen. The album was released on April 20, 2008 in Finland and on August 5, 2008 in Europe. Ato was recorded in the Centaur Studios and Finnvox Studios in Helsinki. The studio has been used for film scores in recent years, as well as soundtracks for TV series such as Black Books, CSI: Miami and La Femme Nikita. Both Holopainen and the orchestra were resident in the studio for three weeks during the late winter and early spring of 2006. A 5.1 surround mix of the soundtrack was also made in the Studios. In December 2006, Rocket Science Records announced that it had acquired the rights to Ato, and was preparing to re-release it under the title **The Final Storm**. However, the recording sessions were subsequently cancelled, and more recent discussions of the Ato re-release began to revolve around Holopainen's forthcoming Finnvox collaboration with Jim Carrey, **The Number One Shrink** (2008). "Ato Soundtrack" was first released on a limited number of Digipack CD's (in the UK only). It featured a limited edition insert with an interpretation of the music by Turisas' vocalist and guitarist T.S. Monk, but a single CD of the score featuring scores in both Finnish and English was then released in Japan, Germany and the UK, (in addition to the US, where only the Digipack edition was issued). A bonus disc was subsequently released entitled "Remastered version of "Ato"". It included soundtrack test pressings and a zero-money sampler CD of various fan-made tracks, and served mainly as an introduction to the real album, a copies of which came with the digipak of the soundtrack. Subsequently, indie label Sub Pop reissued **Ato: Best of Finn for the Dead** to a much larger catalogue, with the remastered bonus disc as a separate 12" vinyl and CD album as the third disc on a slipcase. The Finnish label Elastinen Records later re-released the album along with the movie in 2009. All the songs on the Finnish CD are performed by the 15-piece orchestra in the Finnish language with English subtitles. On the album, the principal instrument is the Aeolian Harp, and
